EDUCATION

SRIST , JABALPUR, MP

M.Tech IN COMPUTER SCIENCE & ENGINEERING

July 2022 | Jabalpur, India

CGPA: 8.8 / 10.00

SRIST , JABALPUR , MP

Aug 2020 | Jabalpur, India

B. TECH CSE : 7.5 / 10

TRIBHUVANDAS MALPANI SCHOOL

May 2016 | Jabalpur, India

High School : 66.6%

SKILLS

COURSEWORK

- Software Testing & Quality Assurance
- Oracle SQL
- Intermediate : LINUX
- Computer Networks
- Splunk & Grafana
- Customer Support & Escalations

PROGRAMMING

Basic : C, C++, Java

Intermediate: Python, SQL

DATABASE

- Oracle SQL • MySQL

For validations & logs

Splunk

For Monitoring

Grafana

TOOLS

- Postman • Swagger UI • SOAP UI
- Oracle SQL developer • Visual Studio
- JIRA GIT GITHUB

ACHIEVEMENTS

EXTRA CURRICULAR

- NCC C Certificate qualified, 4 MPCTR Madhya Pradesh.
- Volunteer – Social NGO (JCA)

EXPERIENCE

HOME CREDIT INDIA PVT. LTD. | Application Support Engineer

Since July 2024 | Gurgaon, HR | Support Engineer- HOSEL Coordinator

- Coordinate with cross-functional teams and business stakeholders to obtain pre- and post-deployment sign-offs. Provide go-ahead for production deployments and ensure testing sign-off is completed.
- Currently working on the HOSEL project at Home Credit, actively involved in quality assurance and production support.
- Perform Regression, Functional, Smoke, and Sanity testing to ensure application reliability and stability.
- Provide production support by handling modification requests from users, ensuring timely and accurate implementation of changes.
- Raise INPT (Internal Request Tickets) for system modifications or enhancements, and validate the implemented changes post-development.
- Collaborate closely with developers to test updates initiated by the product or business teams, ensuring existing functionalities remain unaffected.
- Validate Partner APIs to test changes related to specific contracts or IMEIs, using tools like Postman, SwaggerUI, and SOAPUI.
- Perform database validations to ensure data entered via the UI is accurately reflected in the backend systems.
- Good working knowledge of Splunk for validation and logs. Monitoring the graphs and the partner APIs using Grafana

ECLINICAL WORKS PVT. LTD. | Technical Support Engineer

July 2023 – July 24 | 1 year | Ahmedabad, GJ |

- Collaborated closely with QA and business teams to understand functional requirements and translated them into testable database scenarios to ensure end-to-end system accuracy.
- Managed Tier2 customer for US healthcare application EMR
- Performed backend validation and database testing to verify data flow, schema integrity, and application logic against business rules.
- Validate and updated the data as per the request.
- Handled escalated client and provided 24*7 support on call.
- Maintained knowledge base and technical documentation for recurring issues, escalation flows, and resolution procedures to improve team efficiency and reduce turnaround times.

Mastek LTD. | SOFTWARE ENGINEER - QA

Apr 2022 - July 2023 | 1.3 Yr | Mumbai, MH

- Executed **User Acceptance Testing (UAT)** to validate business requirements and end-user workflows before production release.
- Participated in daily **Scrum stand-ups**, sprint planning meetings, and retrospectives.
- Coordinated with developers and stakeholders to validate fixed issues and maintain quality standards.
- Prepared test cases, test execution reports, and UAT sign-off documentation

- Performed **manual UI testing** across multiple modules and screen sizes to ensure responsive design and correct behavior.

PROJECTS

RM2 – Mastek LTD.

Contributed to end-to-end QA processes by validating end-user workflows before production release. Participated in Agile ceremonies, coordinated with developers and stakeholders to ensure defect resolution, and maintained quality standards. Created test cases, executed manual UI testing across modules and screen sizes, and managed UAT documentation and sign-offs.
